

## Twynning School

### **Art Curriculum Intent**

#### **What is the experience of learning Art at Twynning?**

As a school, we believe that Art is a vital and integral part of children's education. We provide enjoyable opportunities for all children to develop a range of ways in which they can share and express their individual creativity, whilst learning about and making links with a wide spectrum of different types of art in our society.

#### **What are the core concepts we want the children to know?**

- A secure understanding of the National curriculum objectives.
- In depth knowledge of the works of diverse artists and how their work affects the world.
- Improved fine motor skills and tool control.
- Development of practical art skills using a range of mediums, inspirations and purposes.
- A love of Art, and confidence and resilience when completing pieces.

#### **What does it mean to get better at Art?**

Pupils' enjoyment, skills, knowledge and understanding of Art, History and Culture will be developed, resulting in improved pieces that each child is proud of. Our children will:

- Enjoy Art and show perseverance, resilience and focus when completing pieces.
- Discuss and think about key vocabulary.
- Have growing knowledge of key artists and their impact on the Art we see today.
- Be able to express their ideas and feelings, creating Art with a message.
- Design and plan their own pieces using a range of materials and techniques.
- Evaluate the work of themselves and others with increased use of the correct terminology.

#### **How have we chosen what to teach?**

We base our sequence of teaching on the progression of learning which is set out within the National Curriculum.

- KAPOW scheme to ensure progressive skills and knowledge that is adaptable and clear for children to see where they are starting and continuing their learning journey.
- Projects (based on cross curricular topics) where children produce creative work, exploring their ideas.
- Skills based sessions so children become proficient in drawing, painting, sculpture and other art, craft and design techniques.
- Opportunities to evaluate and analyse creative works using the language of art, craft and design.
- Studying great artists, craft makers and designers, and understanding the

historical and cultural development of their art forms.

**Learning through Achieve, Create, Enjoy**

- All children celebrated for their talents as Artists, encouraged to self assess their own strengths and celebrate them
- Links with local artists and experts for class/Key Stage/whole school projects to be displayed in the School/grounds.
- Children given many creative opportunities with some short and long term projects.
- ACE days based around a topic and Art technique, including Art projects that are shared with the school.
